

SBG UPDATES FOR 2019-2020

Adjusting Learning Targets

Fewer learning targets on the report card will allow for more efficient grading and easier reading.

No More Trend Grading

Weighted averaging will more closely resemble traditional averaging but still allow students to recover from mistakes and reflect growth through teaching and learning.

Zeros

Students may receive zeros for not submitting assignments, or participating in assignments, which may impact the academic grade.

Homework

Homework will be reflected as a separate grade in the behavior category. A score of a '1' in homework may impact Junior High eligibility.

Ongoing Grading Throughout Trimesters

Students will still receive final trimester grades, however, grade calculations will run through trimesters to reflect ongoing teaching and learning that is continuous through trimesters.
